

Creation Day 3 Craft

Veggie/ Fruit Printing

Materials needed: fruit/vegetables cut in half or in strips: broccoli, peppers, carrots, apples, potatoes AND paint

The children dip the fruit and veggies into paint and "stamp" on paper with them!

Creation Day 4 Craft

Aluminum Foil Moon

Materials needed: aluminum foil, scissors, dark construction papers, star stickers, or a yellow crayon/marker, and glue

Cut out aluminum foil into a circle to create a full moon (of course, you could create a half moon too!). Help your child place the moon onto the construction paper. Let them decorate with star stickers or by creating yellow lights in the sky with a crayon or marker.
