

# Elijah Helps a Widow

Bring this back next Sunday for a special treat!

## BIBLE STORY

From 1 Kings 17:7-16

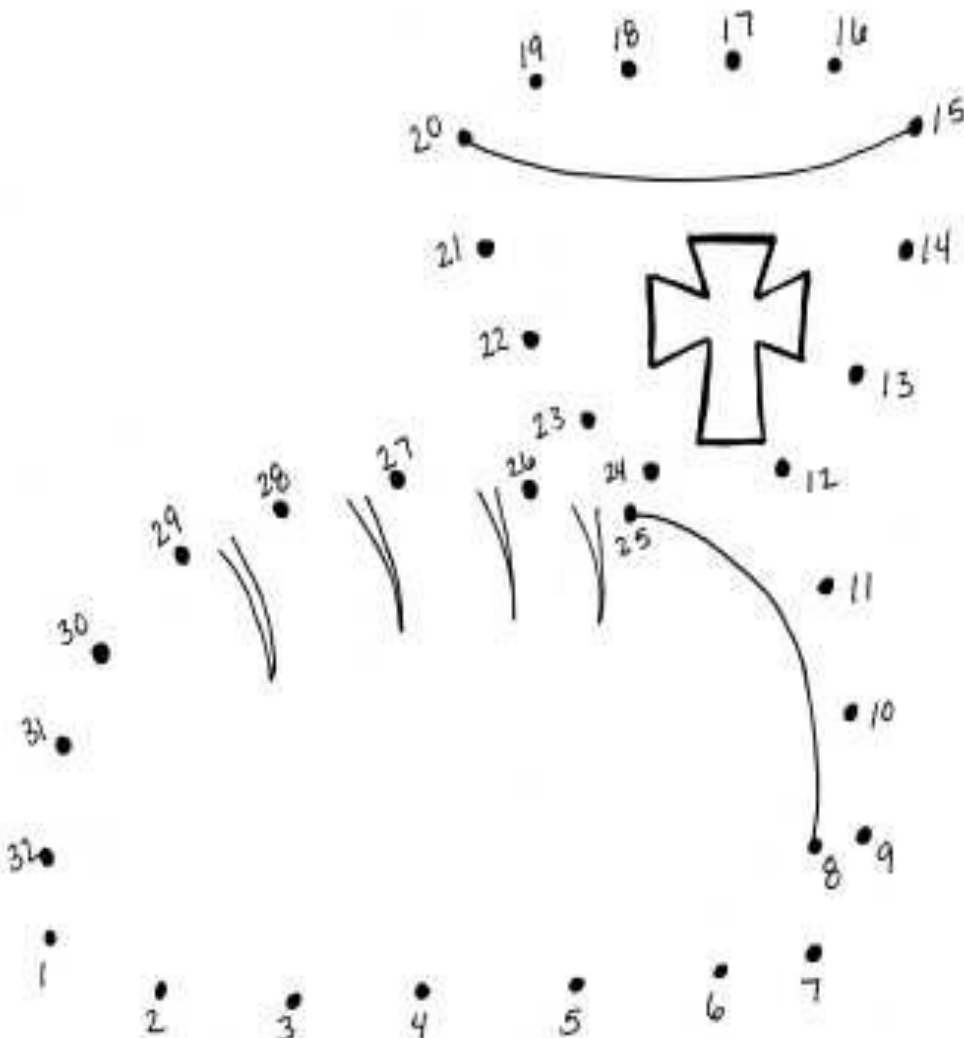

The hot sun dried up the water in the brook where Elijah had been staying. So God told Elijah to go to a nearby town. At the town, Elijah asked a woman to bring him a drink of water and give him some bread.

The woman said she did not have enough flour or oil to make bread for Elijah. Elijah said God would help the woman.

The woman made bread for Elijah and bread for her son and herself. After that there was enough food every day—for the woman, for her son, and for Elijah!

Connect the dots to finish the drawing, then color the picture!

# Elijah Helps a Widow

Bring this back next Sunday for a special treat!

Decorate the woman's jar that she carried her oil in!

What did Elijah ask the woman to give him?

What happened when the woman obeyed and made bread for Elijah?

## FAMILY TALK

As important as bread was for Elijah, it was not the most important thing he needed. Elijah knew that a person does not live only by eating bread, but also by doing what the Lord says. (See Deuteronomy 8:3)

As a parent, it is important for you to be in the Word of God. The Scriptures help us know what is right to do, and they give insight into the teachings of God. We must know those teachings because our children also need to know them.

Reading the Bible together and discussing its lessons and stories will help your child grow up making Godly choices. Give your child the "bread of life" by regularly opening the Bible and studying its truths!

## FAMILY FUN

**Bread Maker....**Find a favorite recipe and bake a loaf of bread. (Banana or pumpkin bread can be easy and fun for children to make.) As you measure and stir the ingredients together, talk about how God gives us what we need to make our bread—flour, eggs, sugar, oil. Let your child proudly serve the bread at your next meal. Talk about how God helped Elijah and the woman have bread to eat.
