## **Leadership Lessons from the Wright Brothers: Part 3**

### *Perseverance Builds Breakthrough*

Creek Kids Leaders,

One thing that kept coming up as I read *The Wright Brothers* was how hard they worked. When they traveled to Kitty Hawk, they spent day after day hauling their glider up steep sand dunes in strong coastal wind. Sometimes they made over 100 test flights in an afternoon. At night, they repaired cracked ribs and bent spars by lantern light. Their progress came slowly, but they kept going.

Pastor Dave

Ministry often works the same way. Small steps, repeated faithfully, become something God uses in a child's life.

*“Let us run with perseverance the race marked out for us.” — Hebrews 12:1*

Thank you for taking those small steps with our kids week after week with steady faithfulness.

Blessings,  
Dave
